Profile

I am an 18 year old aspiring software engineer and front-end developer vigorous to solve user issues and problems. I hold a very strong passion and interest in creating user friendly and engaging interfaces. I have a solid foundation in programming languages such as JavaScript, and HTML/CSS, and I am constantly expanding my knowledge by learning new technologies and frameworks. In addition to my technical skills, I possess excellent communication and teamwork abilities. I thrive in collaborative environments where I can exchange ideas and contribute to the success of a project. I am open to feedback and continuously strive to improve my skills by staying updated with the latest industry trends and best practices.
